A freelance frontend developer with a strong passion for learning and creating websites with great user experience.

EXPERIENCE

OCT 2021 – CURRENT

FREELANCE, DEVELOPER

- Engineered scalable, responsive, multiplatform and SEO friendly websites for multiple clients using HTML5, CSS3 + BEM, Flexbox, JavaScript ES6+ and React best practices.
- Communicated business requirements with stakeholders and delivered high quality solutions.
- Connected to backend APIs through Axios CRUD HTTP requests.

COMMERCIAL PROJECT

FINANCIAL BROKER WEBSITE, AXION FINANCE

- Designed, developed, and hosted my client's website using semantic HTML5, CSS3 + BEM, Flexbox, JavaScript ES6+, and React + Hooks best practices and hosted on Firebase.
- Provided support for search engine optimization for higher indexing through Google's search engine crawler.
- Included responsive multiplatform support to enable the website to be viewed on any platform and device.
- Improved their website performance by lazy loading images and components, compressing, and caching.

EDUCATION

OCT 2021

CS50 INTRODUCTION TO COMPUTER SCIENCE, HARVARD UNIVERSITY(ONLINE)

Dear Sir/Madam:

I am writing to inquire about a potential opening for an internship frontend developer position. I offer the experience to develop scalable, responsive, multiplatform websites using semantic HTML and CSS, JavaScript, & React and the ability to work independently, learn quickly, take criticism, feedback, and learn from others. I would like the opportunity to improve my skills and learn more industry secrets and best practices. I welcome the opportunity to speak with you if you feel I will be a strong candidate for this or any other position in your organization.

Sincerely,

Damanpreet Singh
